WE HAVE A SUGGESTION

From a Civic standpoint much can be done to improve the town in appearance by improving North Main street. We had occasion the other day to drive through a small Indiana town of less than five hundred people and find a side street with only twenty-seven cottages on it that was paved with concrete from curb to curb. The lots were on an average of fifty to sixty feet each and not a house was more than of the cottage type.

If a few residents in a town of only a few hundred can have such an improvement there is no reason in the world why North Main street cannot be improved. Many of the property holders are now ready for such and all that is necessary is a leader to take up this movement. Our suggestion is that as the street is much wider than necessary that a driveway not to exceed sixteen feet of brick or concrete be placed on each side next to the gutter. In the center have a curb from square to square and this filled with dirt for a grass pot or shrubbery. The care of this plot in each square could be left to the property owners who should welcome the opportunity to improve the street in that way.

Traffic would of necessity be forced to the right side of the street in each direction. Let us have some concerted action on this improvement on the part of council and the property owners. The cost divided over a period of ten years such as the Main street improvement is not going to hurt anyone. By our suggestion the cost for North Main street will be much less than for the first brick put down six years ago and which not a property owner on or off the street would permit to be lifted or removed.

PLAY GROUNDS NEEDED

William E. Harmon of New York City, formerly a resident of Lebanon, Ohio, has made an offer of not to exceed \$2000 each to ten Ohio cities to be used for the establishment of playgrounds for children. Lebanon has been selected as one of the small cities to receive this offer. The playground problem not only in large and small cities but in every community is a very important problem. The well equipped playground

under supervision to guarantee good conduct on the part of the children is a necessary nowadays. There is no reason why Cedarville cannot have a playground with a swimming pool for the little folks. We have the natural advantages for such a place. Scores of towns of this size would hope for nothing more than what we have in Massie creek running through the town with hard limestone banks. The Harmon offer is made we understand because he is interested in children. We are neglecting a very important thing for this community when we ignore the modern well regulated playground for children.

BETTER LOOK AHEAD.

The whole history of industry is one of continuous change. Take the big transportation industry. This country is not going to depend on locomotives on rails forever.

The ox cart gave way to the mule team. That gave way to the canal boat. That made way for the steamboat. Yet, the railroad industry seems to think it will last forever. It won't. With each change, the capital invested in the old method was practically a complete loss. How much will be salvaged out of the enormous capitalization of the railroads of today, we do not know. Do the stockholders of the railroads, do the men who work on them think ahead?

Do they realize that the more they muddle transportation, the quicker they are hastening the end of the industry that means everything to them?

LESSON FOR AUGUST 27

NEHEMIAH'S PRAYER

LESSON TEXT—Neh. 1:1-11. GOLDEN TEXT—The effectual, fervent prayer of a righteous man avails much. Jas. 5:16. REFERENCE MATERIAL—Ex. 23:2-3; 1 Sam. 7:9-11; Matt. 9:37, 38; Acts 1:14-15; Eph. 3:14-15. PRIMARY TOPIC—Nehemiah Talking to God. JUNIOR TOPIC—The Prayer of the King's Cupbearer. INTERMEDIATE AND SENIOR TOPIC—Prayer as a Preparation for All Undertakings. YOUNG PEOPLE AND ADULT TOPIC—Prayer and Power.

1. Nehemiah learns of the distress of the Captives (vv. 1-3). 1. When (v. 1). Twentieth year of the reign of Artaxerxes (2:1). The month Chisleu corresponds to our December. It was while performing his duty as cupbearer to the Persian king, Xerxes, that Nehemiah learned of the distress of the captives. He was in a position where he could hear the heart of his king. A young man can be true to God in any position in life if he sets his heart on Jesus Christ and communes with Him by prayer and study of God's word. A man may be elevated to a high position, prosper in business, and yet live a life unspotted from the world.

2. By Whom (v. 2). His brother Hanani and certain men of Judah brought him the news. His inquiry shows that though he was prosperous he did not forget his unfortunate brethren. We should never let our success and well-being shut out sympathy for the oppressed and suffering. 3. The Nature of the Distress (vv. 3-5). The wall of Jerusalem was broken down. Its gates were burned with fire and the people of the captivity were in great affliction and reproach. 11. Nehemiah's Sorrow (v. 4). The news of his brethren's distress greatly moved Nehemiah. He sat down and wept and mourned several days. He fasted and prayed before God. God's people are so essentially one that the affliction and shame of the one is the affliction and shame of all. No one will ever do much to help a distressed people who does not deeply feel their desolation. Nehemiah's sorrow was not the kind that says "I pity you" and goes on in ways of selfishness without making an effort to help. True pity expresses itself in an effort to help.

11. Nehemiah's Prayer (vv. 5-11). He knew where to go for help. He took the matter upon his heart to God in prayer. The first and best way to help others is to pray for them. Nehemiah did not merely pray; he left his place at the Persian court and journeyed to Jerusalem and took hold with his own hands. Our prayers and tears must be translated into definite action if we would be of real help to others. Note the characteristics of this prayer. 1. Its Worthwhile Spirit (v. 5). He recognized God as the great and terrible One, the Lord God of heaven. True prayer shows that spirit of worship. 2. Its Ground (v. 6). It was on the ground of covenant relation that he besought God. On the ground that who are in Christ Jesus can come and plead before God. 3. It Was Persistent (v. 6). He prayed day and night. God is pleased when His servants are persistent in their pleadings with Him. Those who understand the covenant relation will be importunate in their petitions. 4. It Was Accompanied by Confession of Sin (vv. 6, 7). In this confession he mentioned definitely his sin (v. 7). We should specify the sins which we have committed. Most people when praying are too general in their confessions. 5. He Pleads God's Promises (vv. 8, 9). In our praying we should remind God of His own words. It is when His words abide in us that we can intelligently pray (John 15:17). If we would be successful in our praying we should fill our minds with God's promises. 6. He Pleads Relationship (v. 10). He reminds God that they were His children by redemption. Those who are in Christ are God's children by redemption through His precious blood. The child has a claim upon its father. God's children have a claim upon Him. 7. It Was Intercessory Prayer (v. 11). With intense earnestness he definitely prayed that God would give him favor before the king in order that he might be enabled to help his people. The king's favor was needed in order to enable him to help his brethren. God is able to move the heart of a heathen king and thus further His own cause by means of the prayer of a humble servant.

Poem by Uncle John

When you hear a feller grumble at the hill he has to climb, and later, see him crumble in despair—you wouldn't err in judgment, if you bet your bottom dime, that he has built the cross he had to bear. This thing we call humanity, is full of human freaks, with fiftal an' imaginative brains. There's very few that's brave enough to scale the highest peaks,—that knows enough to come in when it rains! With blessin's all around us, we embrace the things that curse. We ponder to the vicious appetite. We undertake the very thing that's sure to leave us worse, an' shut our eyes to everything that's right. Then—is it any wonder, that we founder in the sea, and swaller bitter waters, tempest-tossed? Too often we imagine that our trouble has to be, when we only need the ruler that we lost! We'll find it smoother sailin' if we banish every dread, and cure the imperfection's of our own. The trouble's nearly allers in our little ivory head,—and trouble's hard to manage—in a bone!

Punchettes by Rev. MA. MATTHEWS D.D. LL.D.

THE MARRIAGE PROBLEM

Perhaps the most important problem before the public today is the marriage problem. There are more thunderings at the foundation of the home than ever before.

The world seems determined to destroy the home. It is using the automobile, the motion picture house, the dance hall, the pool room, the summer resort, the Sabbath picnic, games, and amusements, and every other conceivable method to scatter the family, detract from the sobriety of the home and wreck the domestic foundation.

Many a girl marries for a meal ticket, including a theatre coupon. When the day of scarcity of food comes and no amusement is furnished, she enters the divorce court, and there commits a crime against society and places a blot upon the name of wedlock.

Many a couple agrees before marriage to avoid the domestic responsibilities and live a life of freedom from care and domestic duty. Such an agreement is tantamount to premeditated social murder.

The blackest page of American history is the divorce page. To divorce one couple in every five marriages is a crime against society, home and God. Many divorces are sought by women because their husbands are cruel, or they fail to support them or they have deserted them. Any man who deliberately practices cruelty against his wife and fails to support his family, and finally deserts his wife and children ought to be arrested, tried and convicted and whipped in the public square for six months.

No couple should be allowed to marry unless they could also show that they understand and are willing to assume and discharge the obligations that matrimony and a well-ordered home impose upon a couple. Parents are to blame for much of the present-day matrimonial looseness. They are too anxious to marry their daughters.

Awake, parents, and help us solve this all-important problem and thus save society from its present rotting.

4 Pads

It doesn't hold, your money refunded. There is no other 4 pad Non-Skid truss. The most troubles with trusses arise from the pad slipping or moving from the Hennis and the rupture comes out. The two pads in the back of the Non-Skid hold the truss securely in place and positively prevent slipping or moving. We have a Lady Fitter for women. Abdominal support, gynoid hips, supporters, suspensories, elastic stockings and shoulder braces of all kinds.
